IT4 Roofing Sheets

IT4 sheets are box profile roofing materials available in a variety of colours. They are suitable for domestic and light industrial or commercial applications.

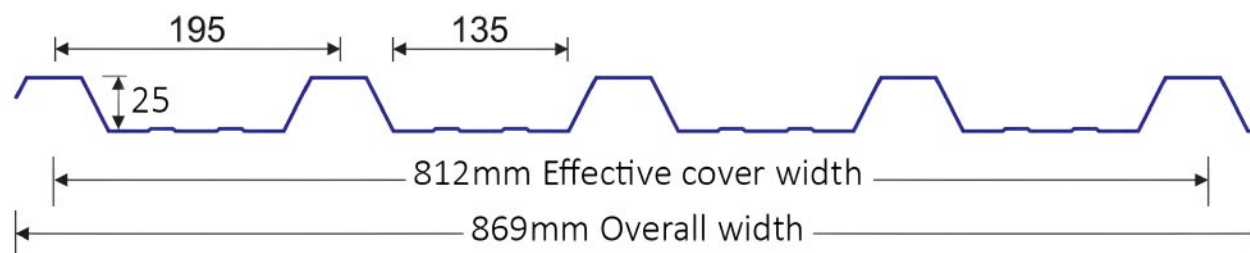

Color Guide

- It is a trapezoidal profile with box crest and valleys suitable for roofing and wall cladding.
- Especially targeted at domestic and light industrial/ commercial applications where the goal is economy and aesthetics.
- Has 4 troughs and 5 ribs. The valley (trough) is wider than the crest (rib) and stiffened using two 25mm wide strips.
- Can be factory cranked into curves of minimum 400mm radius to enhance their use and aesthetic properties.

Specifications

IT5 Roofing Sheets

IT5 is a new roofing box profile in Kenya from alaf stable of high-quality brands. It offers consumers the benefit of having a box profile Mabati that is wider than what is

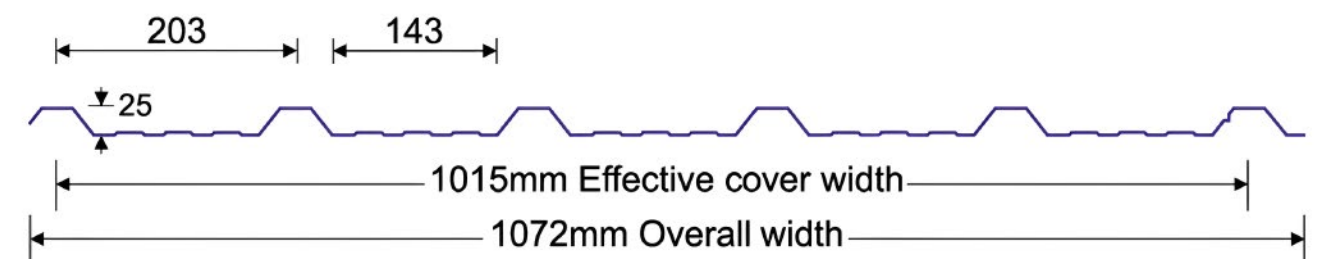

Color Guide

Features & Benefits

- Has an effective cover width of 1015 mm.
- Comes in Gauge 28-30 and requisite accessories available.
- Wide range of colours over 16+ to choose from
- They are aesthetically appealing
- Has an anti-capillary groove to prevent leaking

Specifications

Glazed Profiles

Glazed is a premium steel tile roofing sheet with the look of a classic roof tile but with a much longer life span. It is Tanzania's longest running painted steel tile and has built a legacy of affordable beauty for thousands of product users.

Available in both gloss and textured finish.

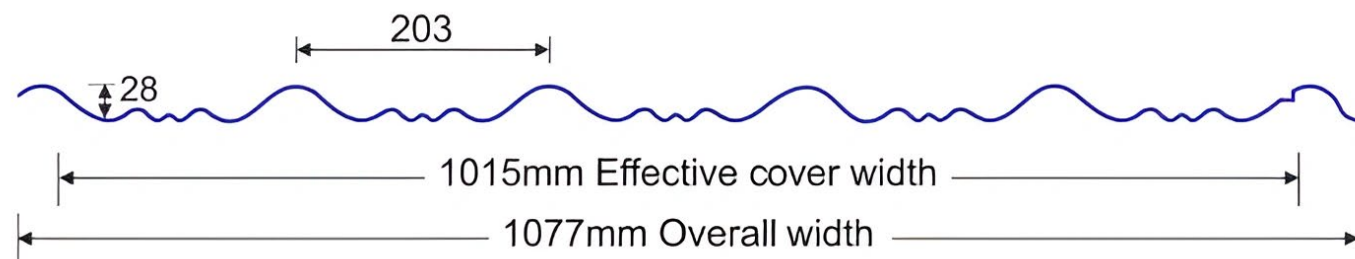

Color Guide

Features & Benefits

- Aluminum-Zinc base hence extra corrosion resistance. Lasts 2 times longer than ordinary colour coated roofing sheets.
- Superior Quality of paint-systems allows DRAGON to offers fade free warranties of between 5 years-10 years.
- Customizable in a range of colours.
- Customized lengths- tailor made to customer requirements. Less joints hence minimal chances of leakage;
- more economy owing to less wastage.
- Available matching accessories offers a truly total roofing solution that is in complete harmony with itself.

Specifications

Mandarin T Profiles

Mandarin T is an aesthetically pleasing profile that is sophisticated and durable. The shape is smooth with clean lines giving it a very chic finish. Its Mediterranean heritage allows for a good fit in this tropical climate.

Available in both gloss and textured finish.

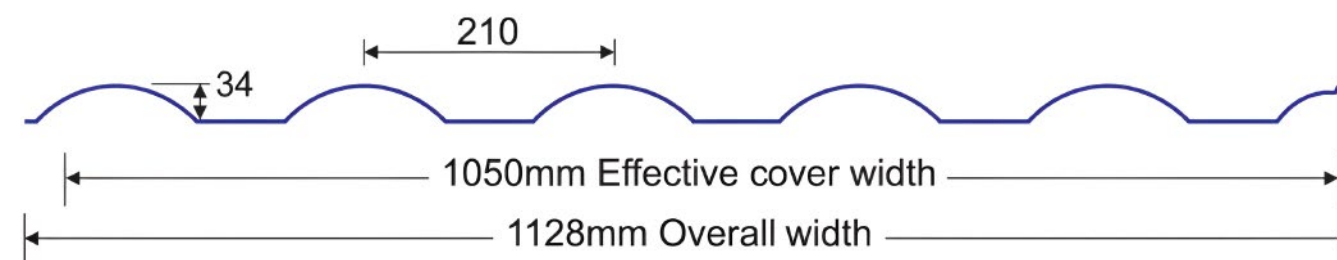

Color Guide

Features & Benefits

- Continuous length profile increases visual uniformity
- Reduces chance leakage
- Lightweight safer to lift and install while enabling the supporting structure to be less bulky/costly
- No underlays needed
- Rapid roof coverage
- Large panel size enables roofing to be completed faster
- Easy and secure - roofing sheets are fixed to the roof structure
- World class patented coating technology
- DRAGON Mark of Quality - each sheet is inspected over 6 times before dispatch
- Engineered to prevent leakage by capillary action

Specifications

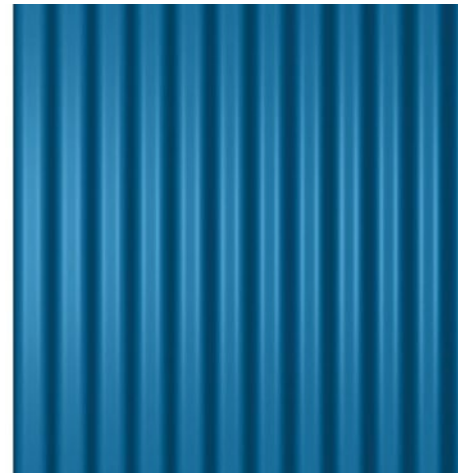

Corrugated Profiles

Corrugated is a unique brand that offers coating of a 55% Aluminum-Zinc protective alloy on a carbon steel base which is pre-painted in controlled factory conditions.

It promises durability and is available in over 16 different colours making it the obvious choice of architects and designers with a bias for class and aesthetics.

The Aluminium- Zinc coated base offers an extremely long life.

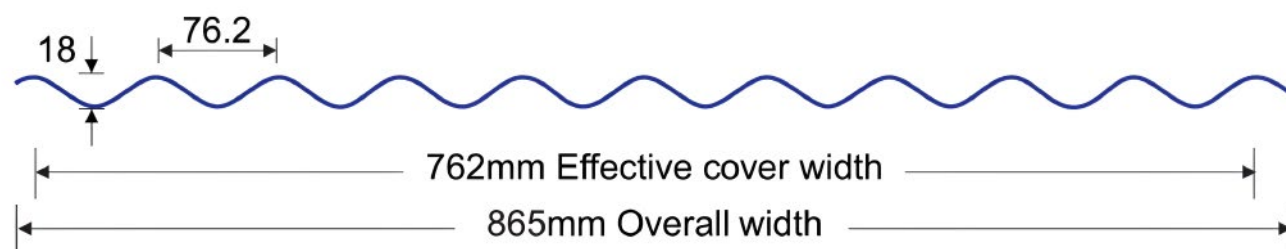

Color Guide

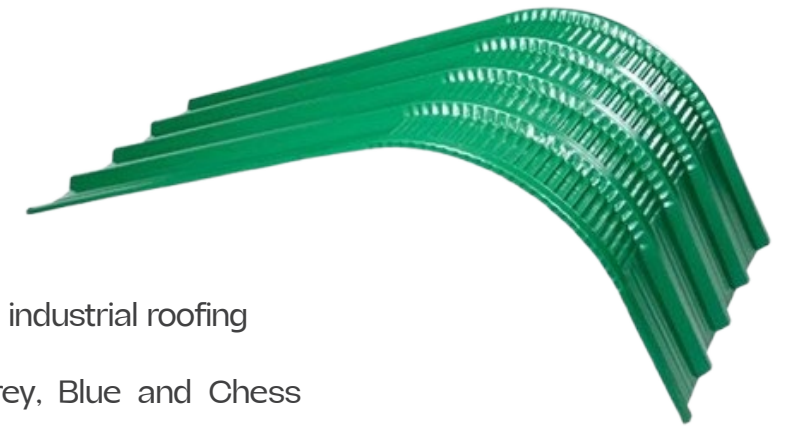

- Aluminum-Zinc base hence extra corrosion resistance. Lasts 2 times longer than ordinary colour coated roofing materials.
- Superior Quality of paint-systems allows alaf to offers fade free warranties of between 5 years-15 years.
- Customizable in a range of colours.
- Customized lengths- tailor made to customer requirements. Less joints hence minimal chances of leakage; more economy owing to less wastage.
- Available matching accessories offers a truly total roofing solution that is in complete harmony with itself.
